

Spotlight

OXYGEN

Accurate down to 1ft, the Druck DPI 145 Multifunction Pressure indicator is an ideal piece of equipment for taking precise altitude readings.

Along with the newly acquired oxygen analyser it allows Oakenhurst to obtain highly accurate calibration results.

Situated in our Auto Flight & Avionics Division's Cleanroom to meet the required safety provisions.

**The Pressure Chamber.
Perfectly located within
our Class 7 Cleanroom.**

Servicing and overhauling oxygen components requires extreme cleanliness and professional equipment. To facilitate this Oakenhurst have utilised our established cleanroom, which adheres to strict limits on maximum particles per cubic metre of room air.

**We believe passionately
in tailoring our service to
meet demands. Our
unique strength is
centred on expanding
and developing in-house
capability. If you have a
particular request, or
want to see our growing
capability list, please get
in touch.**
