

Dear Valued Customer,

Due to the significant number of quality surveys that Oakenhurst Aircraft Services Ltd. receives from our customers, we have created a quality system self-evaluation based on the most frequently asked quality questions.

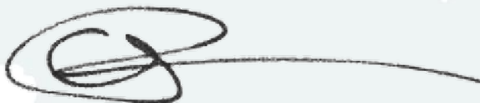

The self-evaluation will give you a thorough understanding of our operation and quality system.

This package includes:

- Oakenhurst Aircraft Services Ltd Company Details
- Products and Services
- Points of Contact
- Completed Self-Audit Survey
- Certificates of Approval

Should you require additional information or documentation, please do not hesitate to contact us.

Regards,

**Emma Parker**  
**Quality Manager**

**Company History:**

The Company was born in 1994 after a need was seen within the aircraft industry to repair and overhaul aircraft components; it gained its initial JAR 145 (Now EASA Part 145) approval and operated from a small workshop in Leigh-on Sea, Essex. In 1997 the company moved to a larger internally purpose built 10,000 sq. ft. facility in Rayleigh, Essex. Numerous other company approvals were gained including FAR Part 145 in 1999, JAR 21 Sub Part G (now EASA Part 21) in 2003, BS EN ISO 9001 in 2006 and Canadian TCCA approval in 2007. The company opened its Ukraine satellite workshop in 2006 which gained its cylinder re-qualification approval in 2008 and at our UK facility in 2011 and a purpose-built Logistics centre in Benfleet, Essex in 2017. In January 2021 due to the UK Leaving the EU, the company's EASA approval was transferred to a UK CAA Part 145 approval, and through the UK CAA and TCCA working agreement no longer require the TCCA approval. Also, in January 2021 due to the UK Leaving the EU it gained its EASA Third Country Part 145 Approval.

**A060 . Ratings for Repair Stations Located Outside the United States Under a Bilateral Aviation Safety Agreement with Maintenance Provisions**      **HQ Control: 06/07/2018**  
**HQ Revision: 01a**

a. The certificate holder is authorized the following UK ratings where the scope of work is authorized by the appropriate aviation authority. The FAA may issue a repair station certificate with appropriate ratings under 14 CFR Part 145, § 145.53(b) provided A060 satisfies:

- (1) The rating comparison chart and guidance in the applicable MAG
- (2) Ratings are limited by type and weight of aircraft
- (3) Ratings are issued either for base or line maintenance
- (4) Ratings are not listed in operations specification A003 per the prospective MAG procedures.

b. The certificate holder is authorized the following aircraft ratings per the scope of work identified in the Aircraft Ratings Table below:

AIRCRAFT RATINGS	Approval Certificate and Scope of Work

c. The certificate holder is authorized the following engine and APU ratings per the scope of work identified in the Engine Ratings Table below:

ENGINE RATINGS	Approval Certificate and Scope of Work

d. The certificate holder is authorized the following ratings for components other than complete engines or APU per the scope of work identified on the Ratings for Components Table below:

RATINGS for COMPONENTS	Approval Certificate and Scope of Work

Mr. Dmitry Galilesky  
General Manager  
Oakenhurst Aircraft Services Ltd.  
Boryspil-7, Hora Boryspil District  
Kyiv Region, 80300 Ukraine

Dear Mr. Galilesky:

The Pipeline and Hazardous Materials Safety Administration (PHMSA) has reviewed your application for approval as a cylinder requalification facility under Section 107.805 of Title 49 Code of Federal Regulations (49 CFR). At the recommendation of Arrowhead Industrial Services USA, Inc., this office is reissuing the requalifier identification number (RIN) H338 to your facility located at Kiev International Airport, MPP Winchester Service, Borysil-7, for DOT cylinder specification(s): **3A, 3HT and Special Permit(s): 8718, 8162, 10915, 10945 and 11194**. This number authorizes requalification of the authorized cylinder specifications by the “hydrostatic” test method, applies to this location only, and is valid until the posted expiration date above or until terminated by the Associate Administrator for Hazardous Materials Safety.

In addition to the requalification of cylinders under the relevant provisions of Sections 180.205 through 180.215 of 49 CFR, the following conditions must be met:

1. You must notify this office of any change in facility name, address, ownership, management, equipment, or testing personnel within twenty days of the change.
2. Testing must be performed by, or in the presence of, a designated hydrostatic test operator who has been observed by the authorized inspector, or who has been added to your file by addition under condition number one (1) above.
3. A copy of this approval must be maintained adjacent to the testing unit.
4. This approval is renewable every five (5) years. If you wish to renew this approval, please ensure that your application for renewal is received by PHMSA at least 60 days prior to the expiration date posted above, in accordance with 49 CFR 107.705(c).

5. Renewal applications or enquiries should be sent to [approvals@dot.gov](mailto:approvals@dot.gov).
6. Copies of your application and all supporting documentation must be retained and made available to DOT upon request.
7. Testing under this RIN approval is authorized only on the authorized cylinder specifications and testing method listed above. Additional special permits (*not meeting approved testing method above*), DOT cylinder specifications, including UN ISO specifications may be requested only after inspection and recommendation by an approved Independent Inspection Agency and only after additional approval is granted by PHMSA in accordance with the requirements of 107.705 and 107.805.
8. Each “Hazmat employee”, as defined in Section 171.8, who performs a function subject to this approval, must receive appropriate training in accordance with Section 172.702.
9. All correspondence must include the requalifier identification number (RIN).
10. **This approval as revised supersedes all previous versions.**

for William Schoonover  
Associate Administrator for Hazardous Materials Safety
