## **Oakenhurst Aircraft Services Ltd - Sustainability & Responsible Business Statement**

Last Updated: May 2026

Oakenhurst Aircraft Services Ltd recognises the importance of operating responsibly and sustainably within the aviation industry.

We are committed to conducting our business in a manner that supports environmental awareness, ethical practices, employee wellbeing, and long-term operational sustainability.

### **Our Approach:**

As an aviation component maintenance, repair, and overhaul (MRO) organisation, we recognise that sustainability is achieved through continuous improvement, responsible decision-making, and efficient operational practices.

### **Our focus includes:**

- Supporting product life-cycle extension through repair, overhaul, refurbishment, and reuse
- Reducing unnecessary waste and improving recycling practices where possible
- Encouraging efficient use of energy and resources throughout our operations
- Promoting electronic processes and reducing unnecessary paper consumption
- Working with reputable suppliers and service providers that support responsible business practices
- Maintaining a safe, professional, and respectful working environment for employees and visitors

### **People & Workplace:**

We believe that a sustainable business depends on a skilled, engaged, and supported workforce.

Oakenhurst Aircraft Services Ltd is committed to maintaining a workplace culture built on professionalism, safety, respect, accountability, and continuous improvement.

### **Continuous Improvement:**

We continue to review and develop our operational practices, supplier relationships, and environmental awareness initiatives to support responsible and sustainable business operations.

### **Approved by:**

Oakenhurst Aircraft Services Ltd
